

Data Cube

YOUR DATA SOLUTION PARTNER

COMPANY PROFILE

Empower businesses to make better decision, optimize their performance and provide solutions that are sustainable.

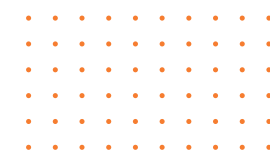

ABOUT US

Who We Are

We are a leading consulting firm specializing in providing advisory services for building and implementing business intelligence solutions. We have a team of experts with extensive experience in Power BI, Power Apps, Power Automate and Azure Synapse Analytics.

OUR FOUNDER

Jay Shong, the driving force behind Data Cube, a pioneering data analytics company that has reshaped the landscape of the industry. With an impressive tenure of over 10 years in the field of data analytics in Australia, Jay Shong has garnered a wealth of experience and emerged as a distinguished expert, particularly in Microsoft technologies.

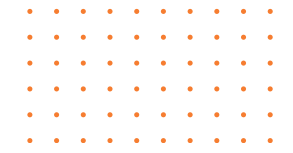

His proficiency in Microsoft technologies set him apart, positioning him as a go-to authority in the rapidly evolving field.

Having served in pivotal roles across multiple MNCs, Jay accumulated a wealth of knowledge and insights into the intricacies of data analytics. His ability to navigate complex challenges and deliver innovative solutions caught the attention of industry leaders, solidifying his reputation as an expert with a keen understanding of Microsoft technologies.

In 2021, fueled by a passion to create a lasting impact and driven by the belief that data held the key to unlocking untapped potential in businesses, Jay Shong founded Data Cube. The vision was clear — to democratize access to powerful data analytics tools and empower organizations to make data-driven decisions with confidence.

OUR VISION

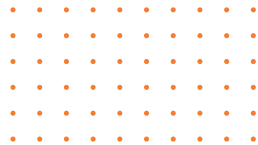

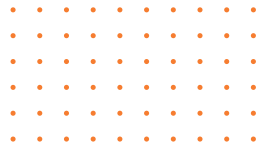

Our vision at Data Cube is to democratize the power of data, making advanced analytics accessible to businesses of all sizes

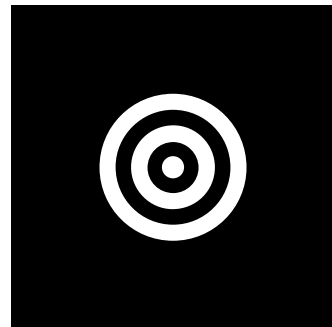

OUR MISSION

Our mission at Data Cube is to empower businesses to make data-driven decisions by providing expert consulting and cutting-edge technology solutions, enabling them to turn raw data into actionable insights that drive growth and success.

OUR SERVICE

Data Strategy

Empower your business to adapt to ever-changing market conditions with latest technology.

Reporting

Enhance the visibility of your business with interactive dashboard, and empower your users to make data-driven decisions.

Data Science

Boost your business with smart and powerful Artificial Intelligence and Machine Learning solutions.

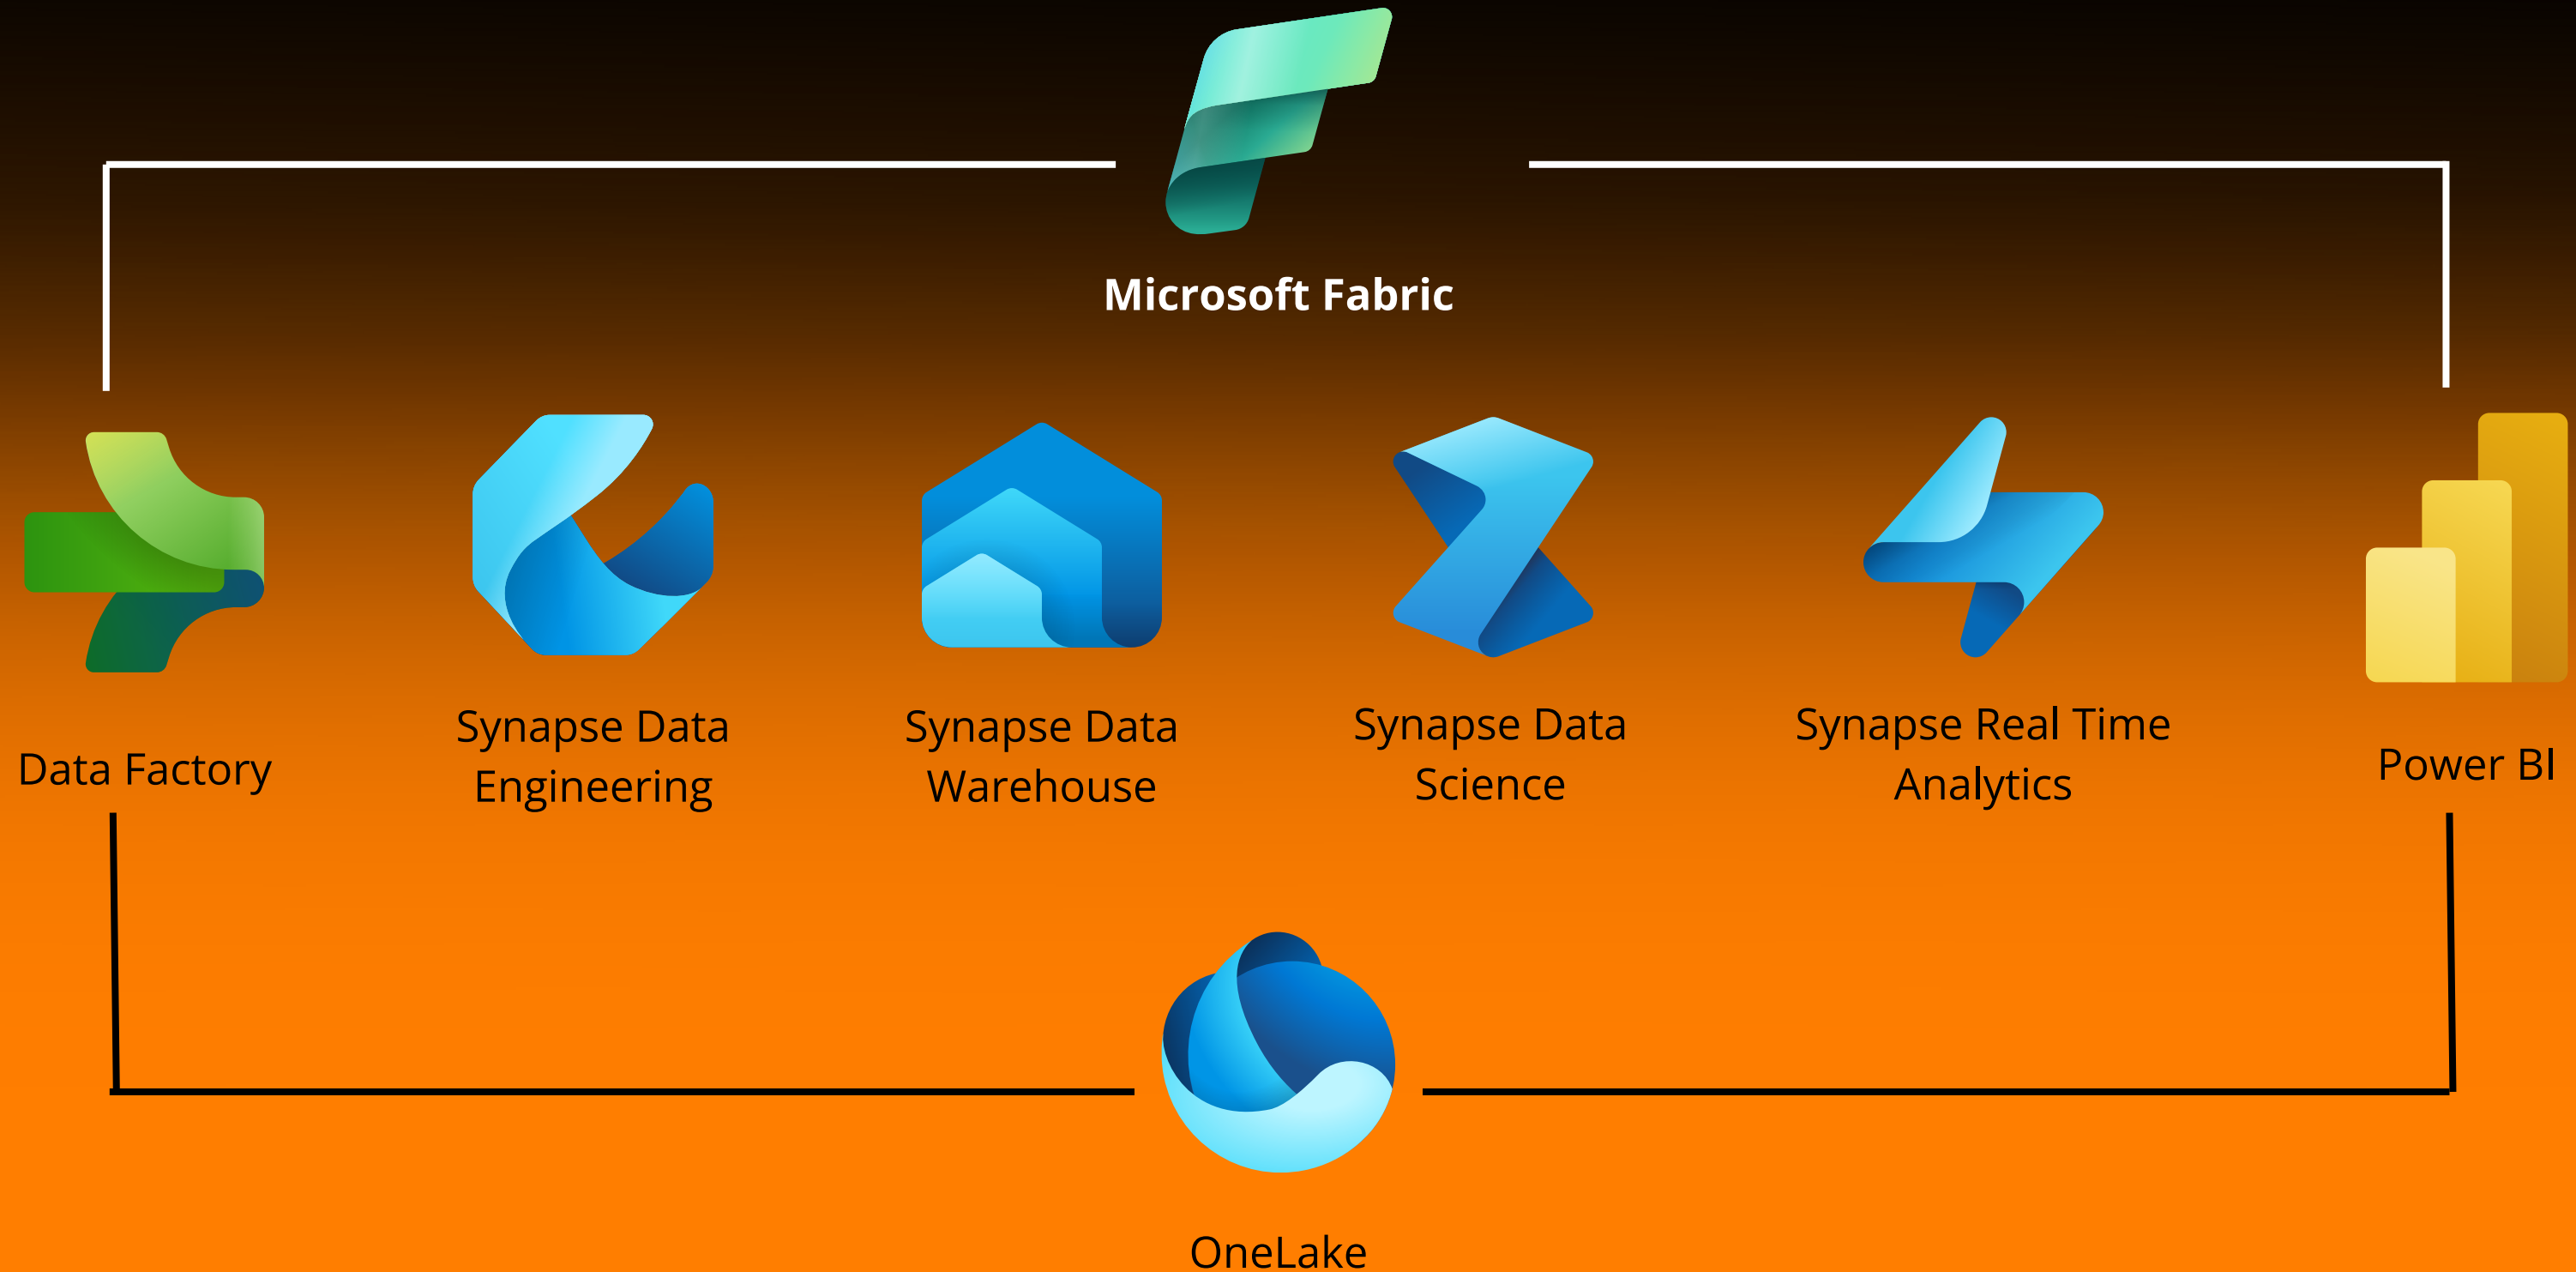

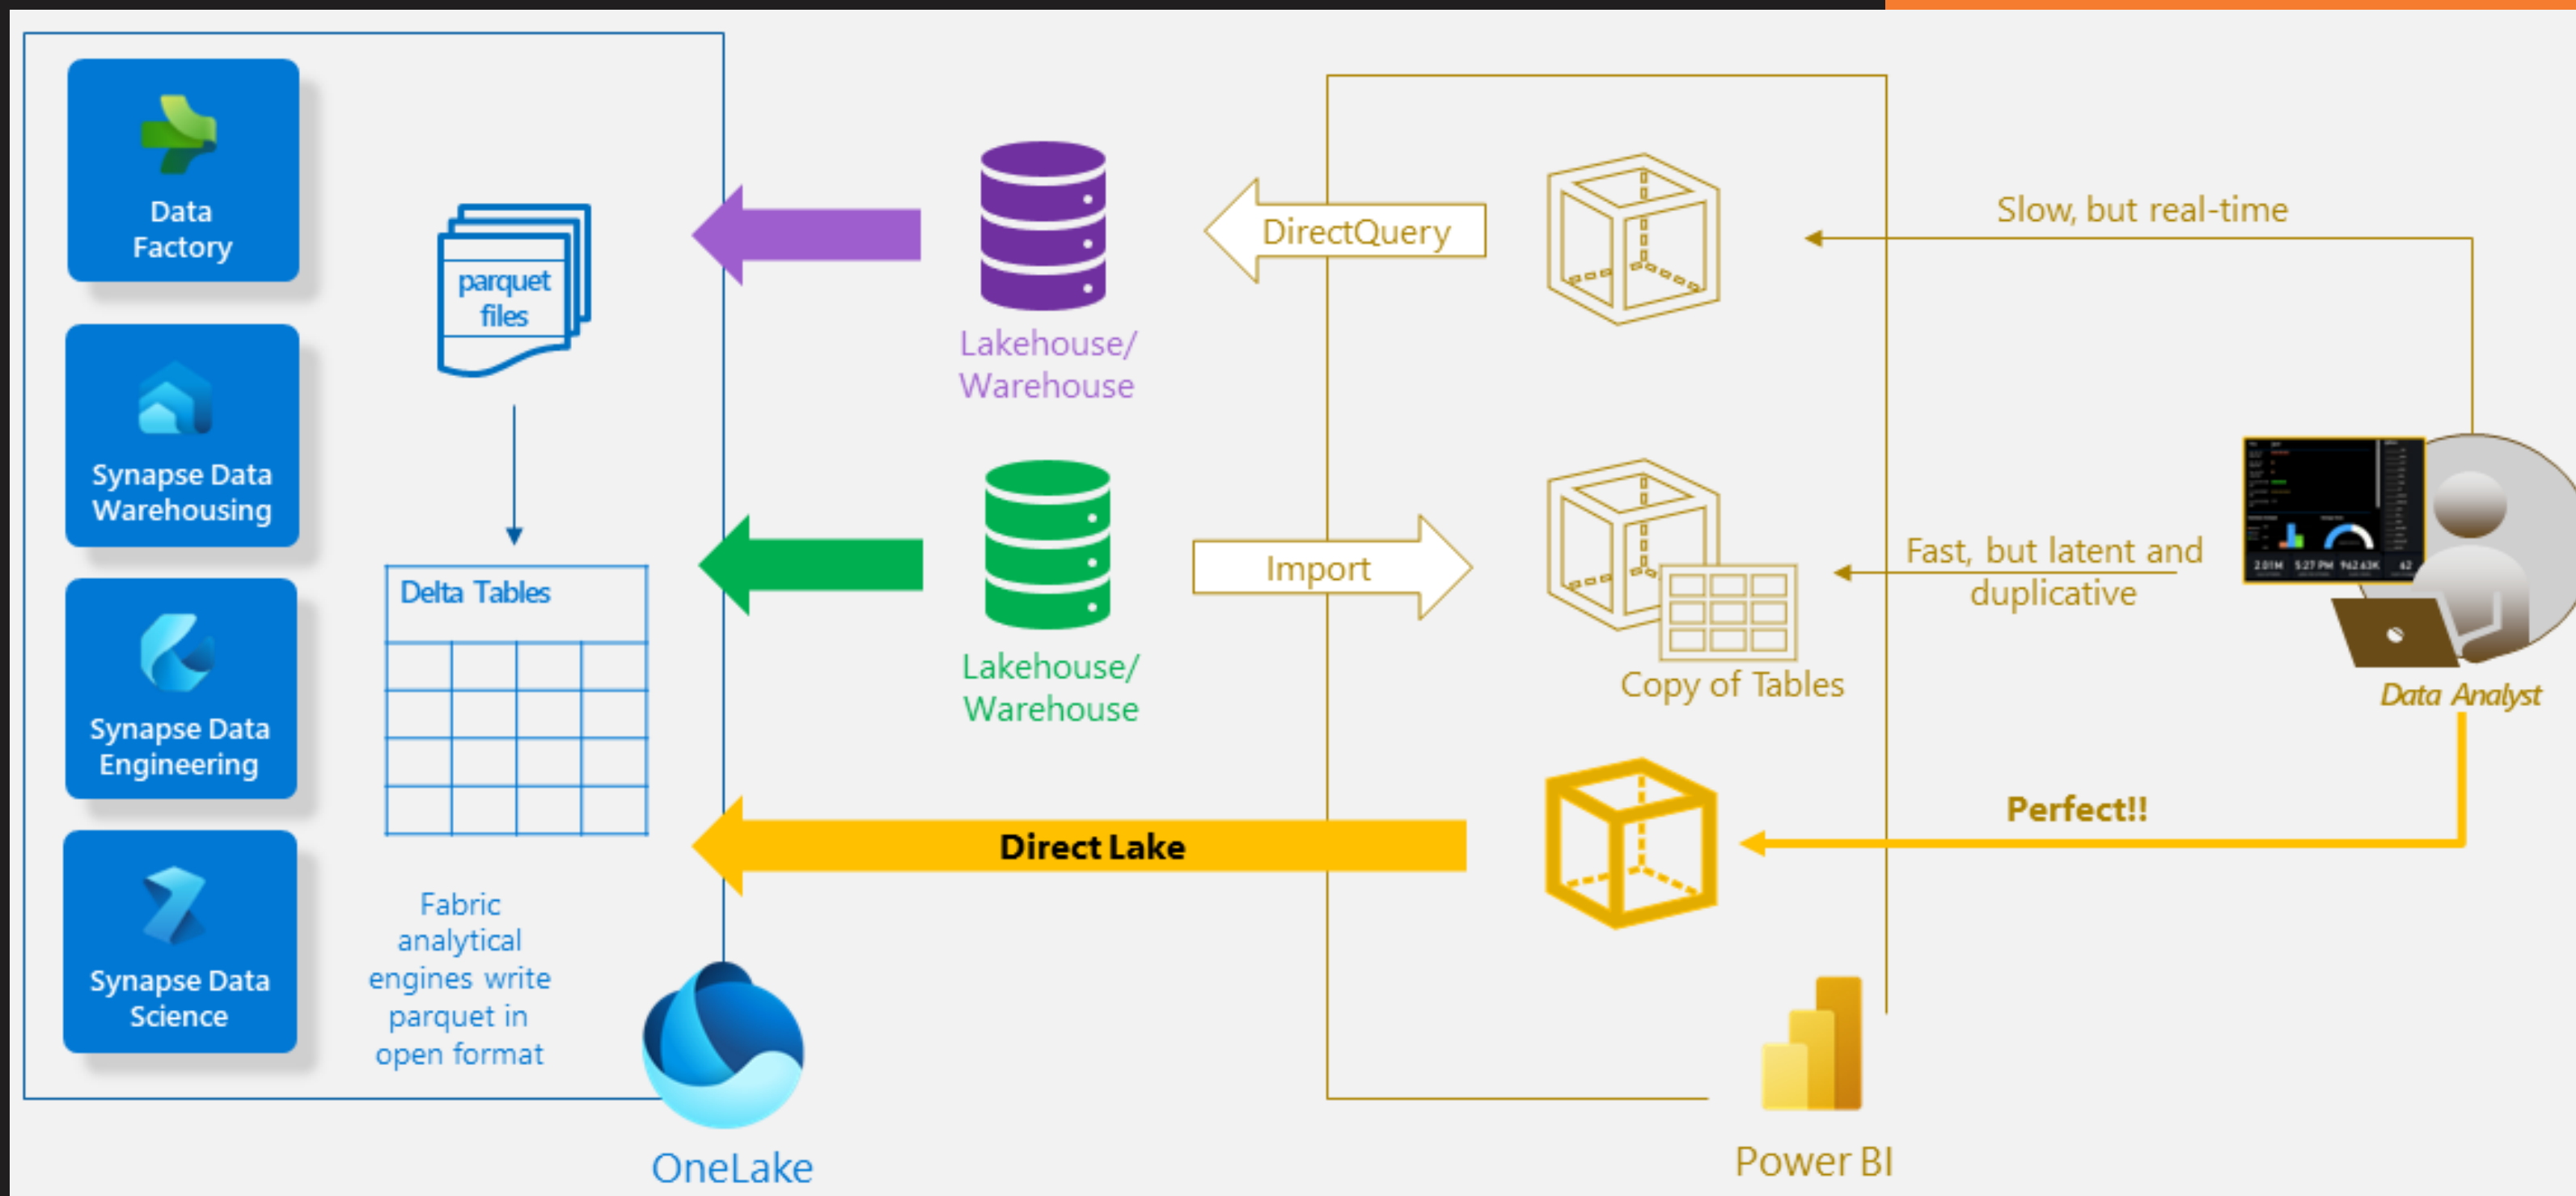

Big Data Platform

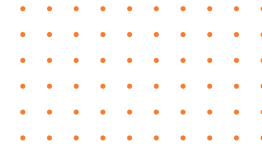

Streamline your business with one integrated and reliable big data platform to support your daily business activities.

OUR TECHNOLOGIES

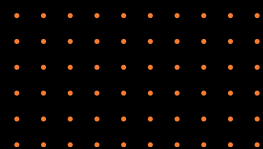

CASE STUDY 1

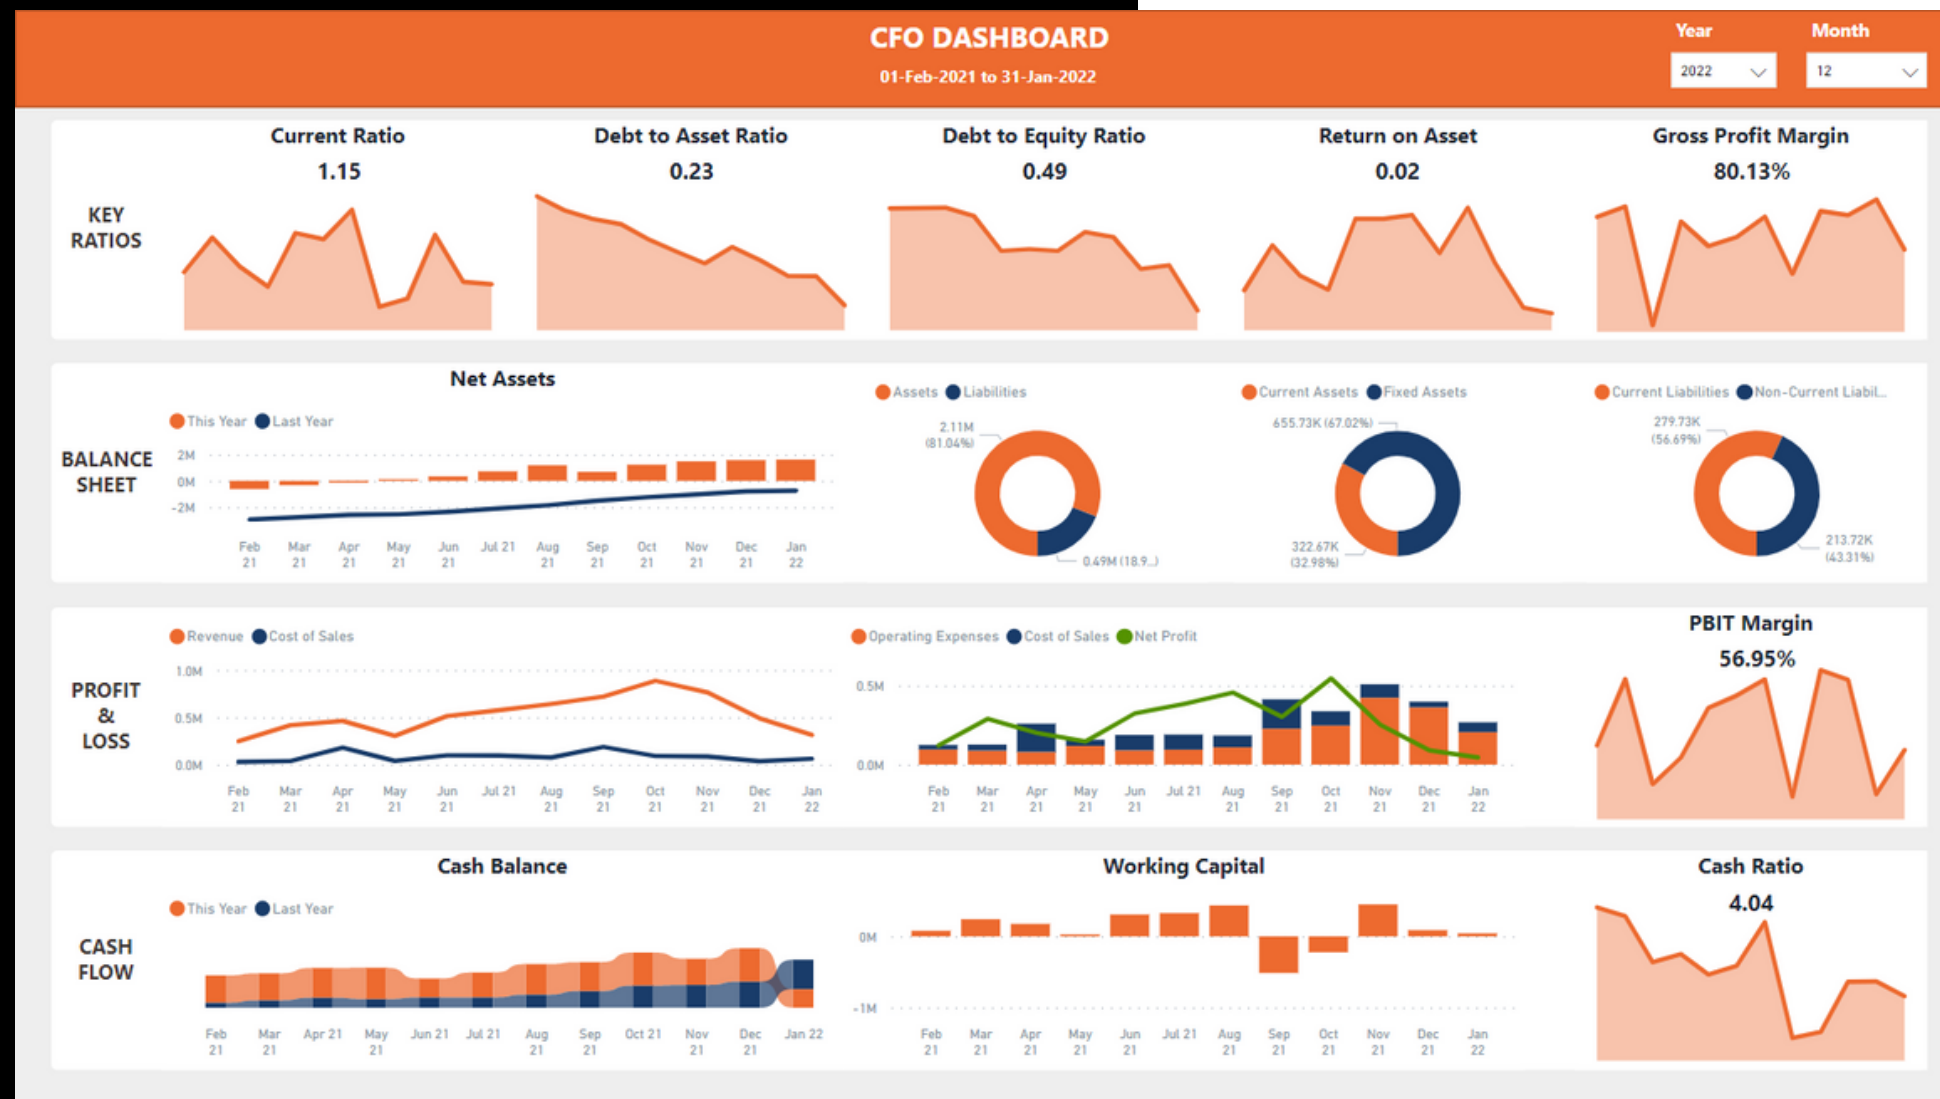

Data Warehouse (Sime Darby Plantation)

Due to multiple sources of data coming in and numerous data entry effort to consolidate them, Sime Darby Plantation decided to automate their reporting framework through Azure Synapse Analytics and Power BI to streamline the process and gain real-time insight.

- ▶ Reduce manpower
- ▶ Real-time insight
- ▶ Single source of truth
- ▶ Consolidated Reporting

CASE STUDY 2

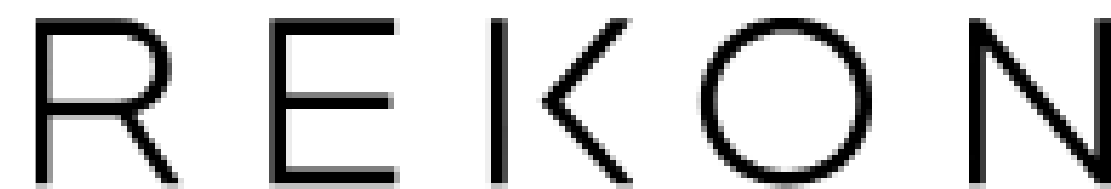

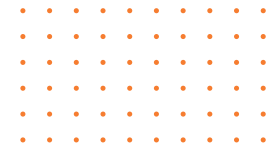

CFO Dashboard (Keris Hijau Sdn Bhd)

CFO Dashboard provides a comprehensive and real-time overview of key financial metrics. Through intuitive visualizations and dynamic reporting, CFOs and financial stakeholders gain instant insights into critical aspects of their organization's financial health.

- ▶ Real-time insight
- ▶ Single source of truth
- ▶ Consolidated Reporting
